

SAP S/4 HANA

TODAY'S PRESENTER

MARKUS HAUSWIRTH
HEAD OF SAP
PROJECT LEAD
markus.hauswirth@capgemini.com

MARTIN HEINKE-SOKOL
PROJECT MANAGEMENT
martin.heinke-sokol@capgemini.com

BALÁZS LOGODI
SAP SENIOR MANAGING CONSULTANT
LOGISTIC LEAD
balazs.logodi@capgemini.com

**WAY TO GO:
NEW IMPLEMENTATION?
SYSTEM CONVERSION?
SELECTIVE DATA ?**

SAP S/4HANA TRANSFORMATION APPROACHES

SAP S/4HANA TRANSFORMATION APPROACHES

SYSTEM CONVERSION

- You just need to **adapt/adjust processes and development** according to SAP S/4HANA and you are good to go
- All data** from source SAP system is brought forward to the target SAP S/4HANA system

SELECTIVE DATA TRANSITION

One of the transformation method to migrate to SAP S/4HANA

Two approaches – **Shell Copy** and **Mix-And-Match** – are defined by how you set up target SAP S/4HANA system:

If you reuse of an existing SAP ECC system to set up target environment, it is a **Shell-Copy** approach

If you install a new SAP S/4HANA system as target system, the approach is **Mix-And-Match**

Majority of your current processes are close to what you want to have in your future system

You want to re-design majority of your processes

Flexibility to select data from source at various levels such as history, process, module, document status etc. and transform according to the target org / data structure.

NEW IMPLEMENTATION

- You completely **re-design your processes** from scratch and then roll out according to your business needs
- You bring over **only master data and open items** from legacy systems.

SAP S/4HANA TRANSFORMATION APPROACHES

SYSTEM CONVERSION

- Is your move to SAP S/4HANA driven by the IT?
- Do you require previous transactional data in the new system?
- Do you have high number of interfaces to other systems?
- Can your company sustain a multiyear innovation plan with incremental innovations?

NEW IMPLEMENTATION

- Is your move to SAP S/4HANA driven by the business?
- Can you adopt SAP standard content?
- Are landscape consolidations and process harmonization key value drivers?
- Do current business processes support your long term strategy?

BUSINESS TRANSFORMATION – CAPGEMINI PATH

CPGPath reduces implementation cost and time by up to 30%

Building future readiness

CPGPath run costs decrease 18% YOY for same business scope??

Enterprise-wide Innovation

Pre-built Intelligent RPA

Ongoing process governance & improvement

Ongoing cost management

Frictionless execution

Increase Business Value

SEN as an accelerator to drive Path adoption-Reusable training content

Latest demo-ready system to aid early design visualization

Business value driven assessments

Implementation leverages prebuilt Accelerators

Decrease cost of adoption

Data-driven decision making – Embedded Analytics

CPG industry-specific process execution

Prebuilt integrations into LOB Solutions

Capgemini's Design by Acception® approach

Leverage best practices at core

Accelerate adoption, mitigate risk

STRATEGY: CLEAN CORE? GREEN CORE?

WHY IT IS IMPORTANT TO KEEP THE CORE CLEAN ?

1 DRIVE INNOVATION & INCREASE PRODUCTIVITY TO SOLVE BUSINESS PROBLEMS WITH TECHNOLOGY ON CLOUD

2 CLEAN CORE WILL HELP LOWER MAINTENANCE AND UPGRADE COSTS AND ENHANCED CHANGE MANAGEMENT

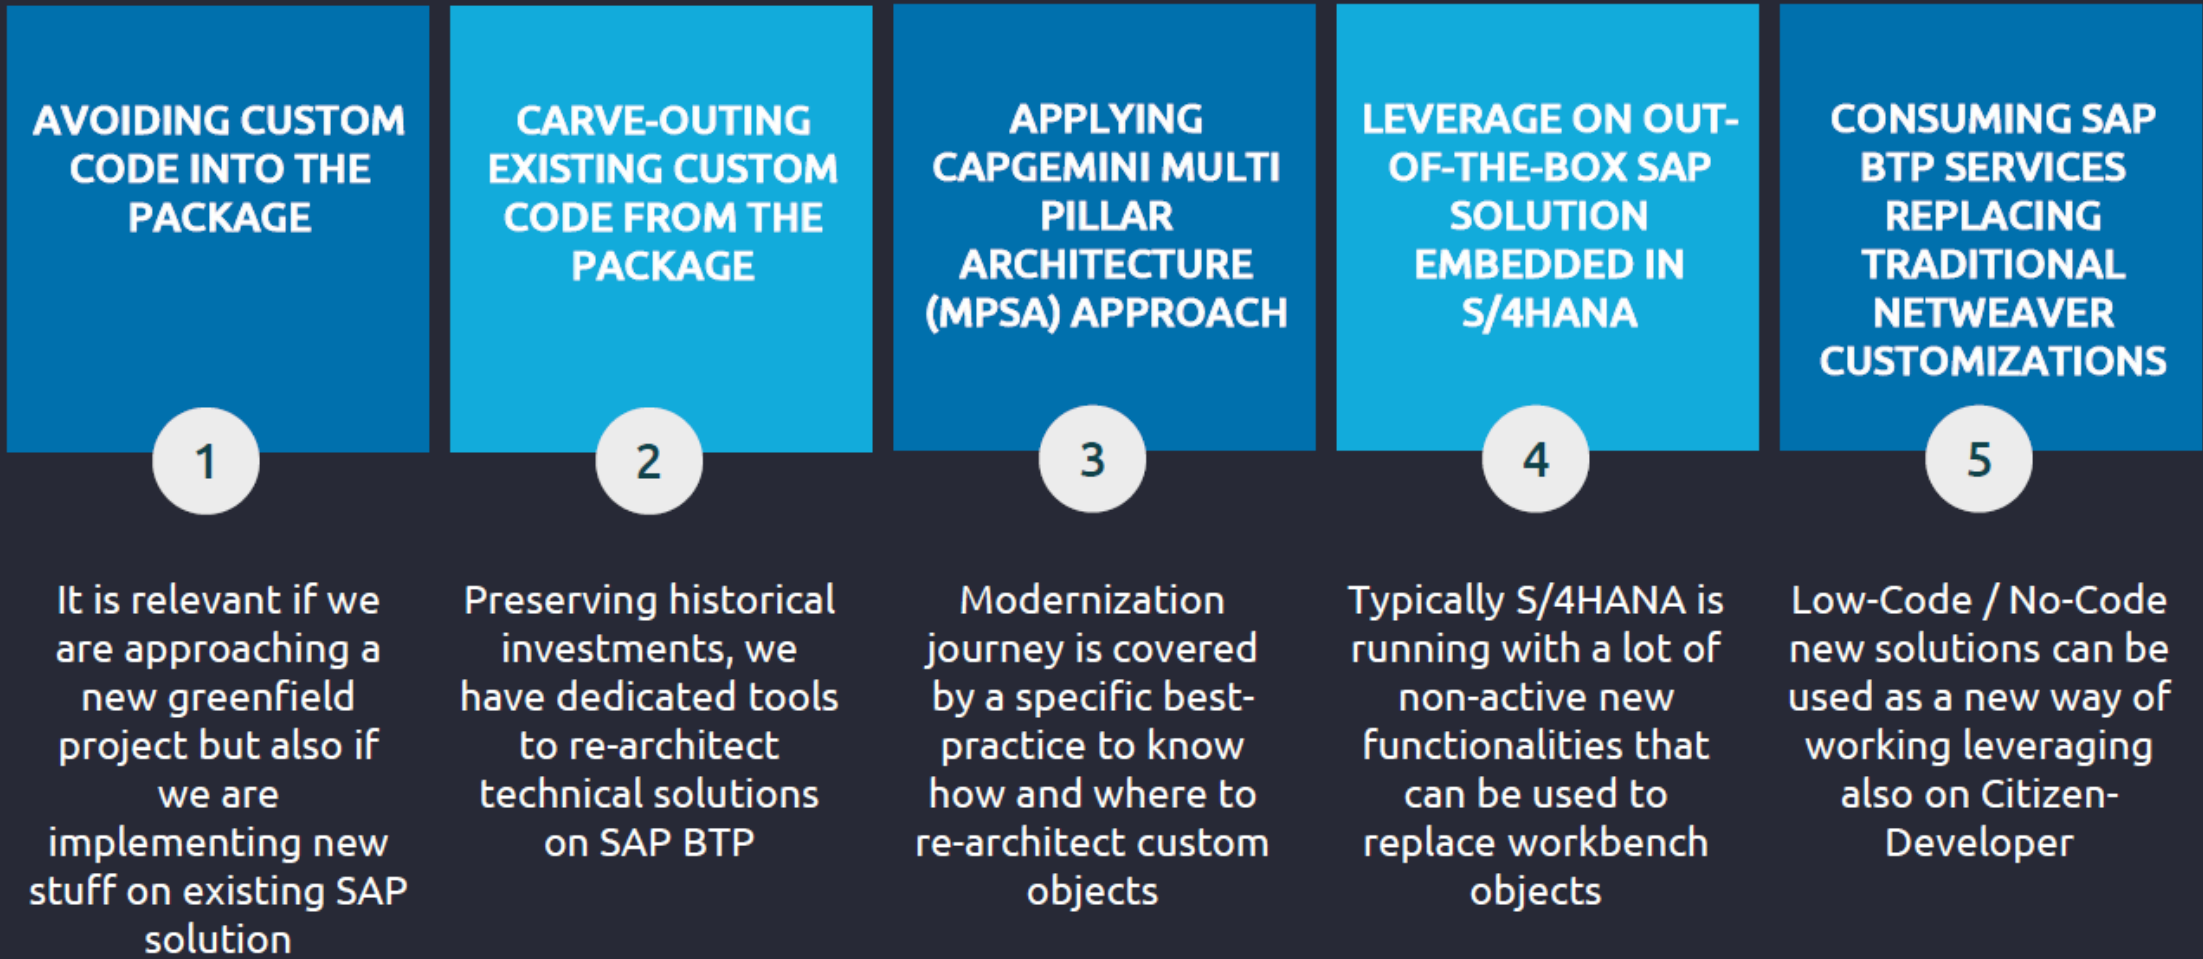

3 EASIER ADAPTABILITY TO MARKET CHANGES

4 MORE EFFICIENT & SUSTAINABLE USE OF THE NEW TECHNOLOGIES

HOW WE APPROACH THE “CLEAN CORE” WITH OUR CUSTOMERS ?

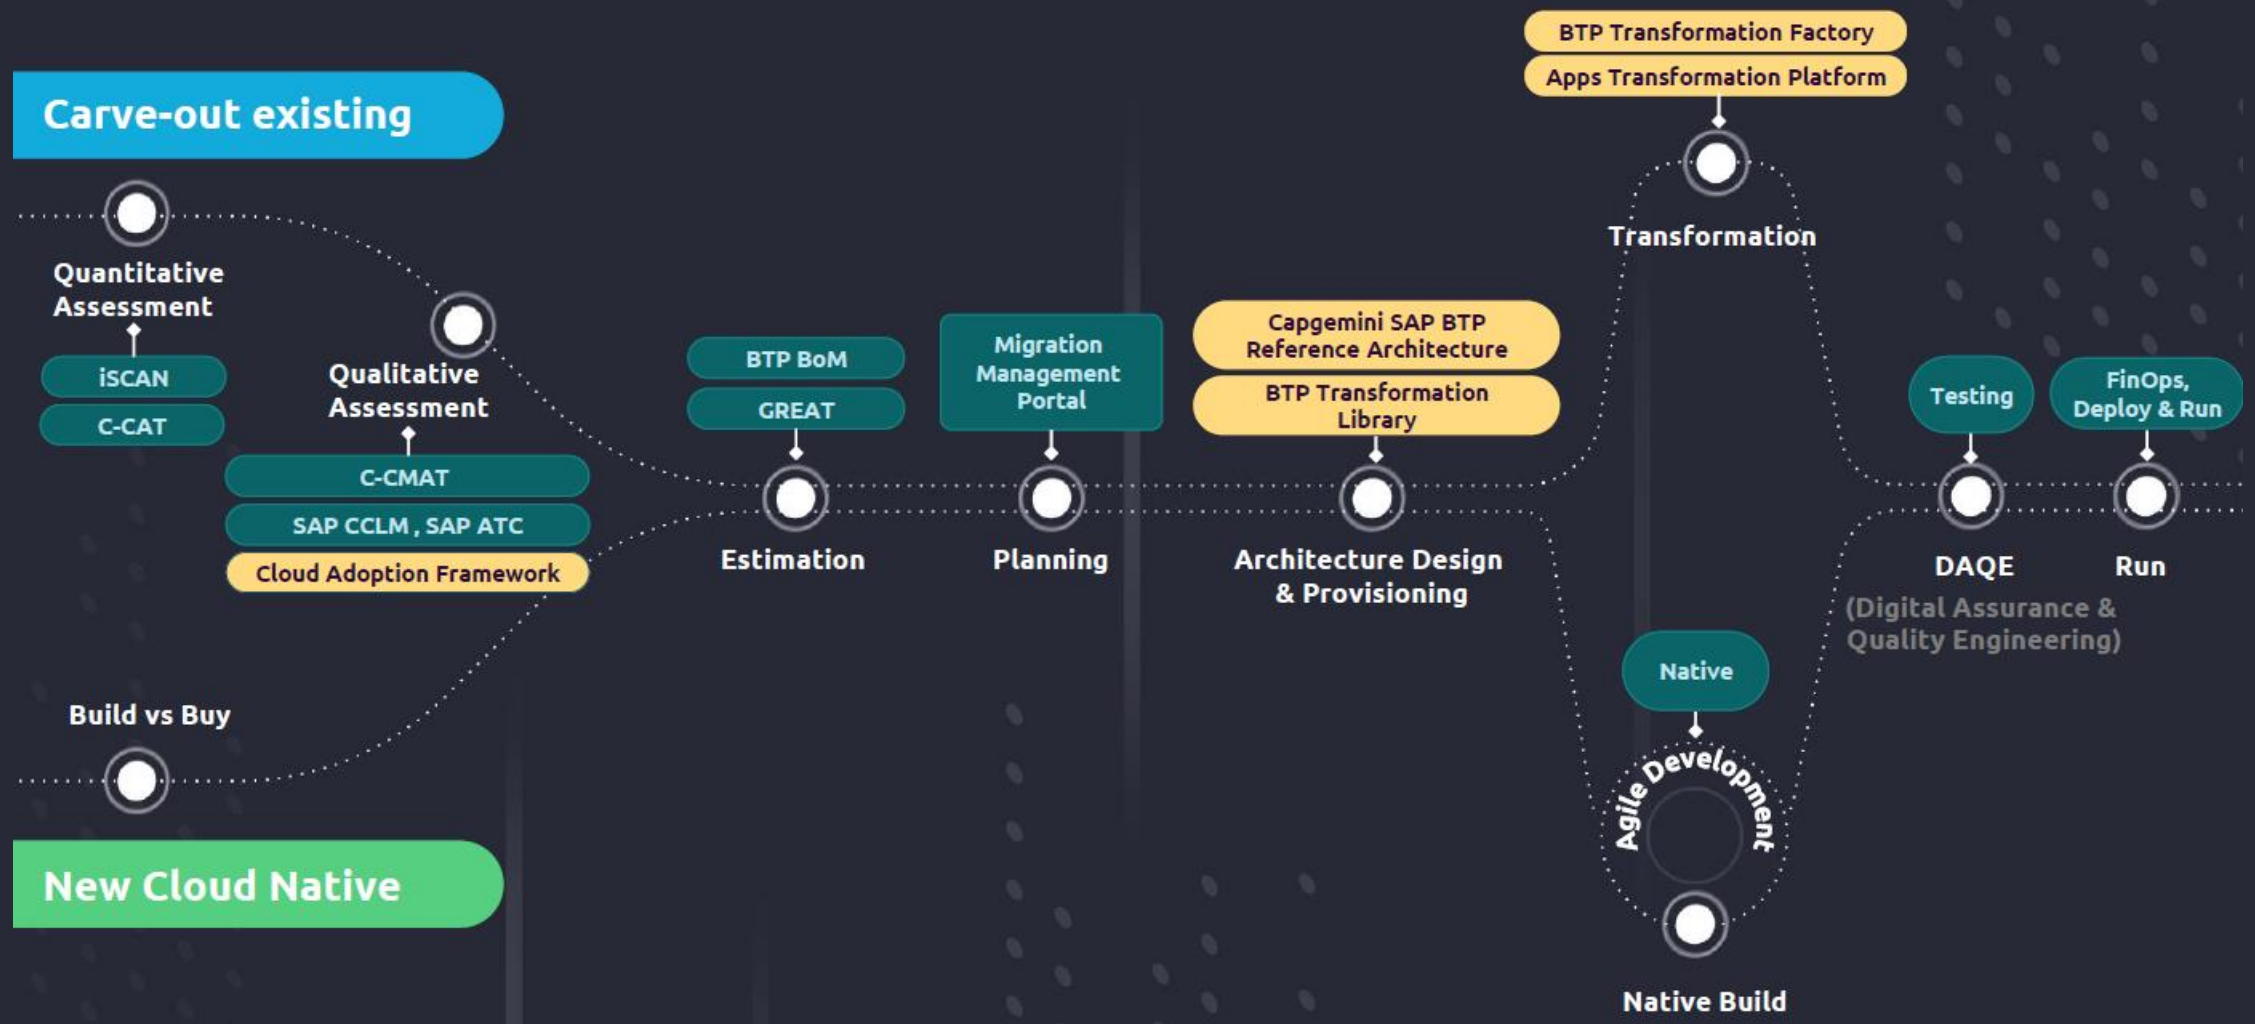

ADOPTING A NEW CLEAR STRATEGY AND METHODOLOGY TO BE USED ON THE DAY-BY-DAY

CAPGEMINI SAP BTP END 2 END FRAMEWORK

EXTENSIBILITY, CLEAN CORE: SAP BTP CLOUD TRANSFORMATION FRAMEWORK

GREEN CORE WITH SAP SOLUTIONS: AN OVERVIEW

What are Green Core with SAP Solutions?

A set of solutions built on top of SAP applications that provide greater visibility and control for organizations by measuring the financial, economic, and social impact of their IT, operations and wider value chain.

What do they do?

Green Core with SAP Solutions use transactions across business functions in SAP applications to track carbon emissions and other sustainability KPIs, and visualize them in decision dashboards.

Why is this important?

Real-time outputs help teams make critical decisions and take action to meet their ambitions for making the value chain more sustainable – in turn driving competitiveness, compliance and growth.

DIGITAL CORE WITH SAP S/4HANA®

WHY CAPGEMINI CAN SUPPORT AND HOW?

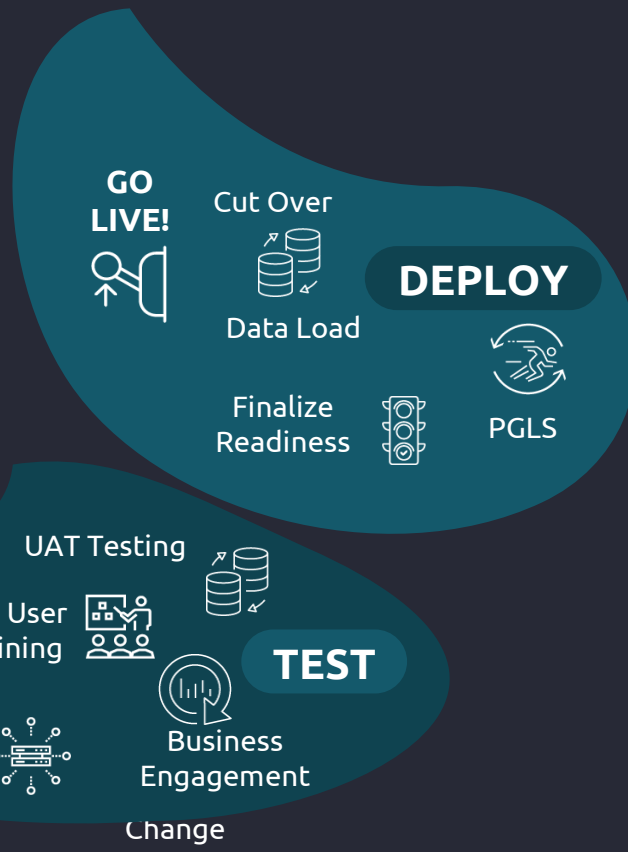

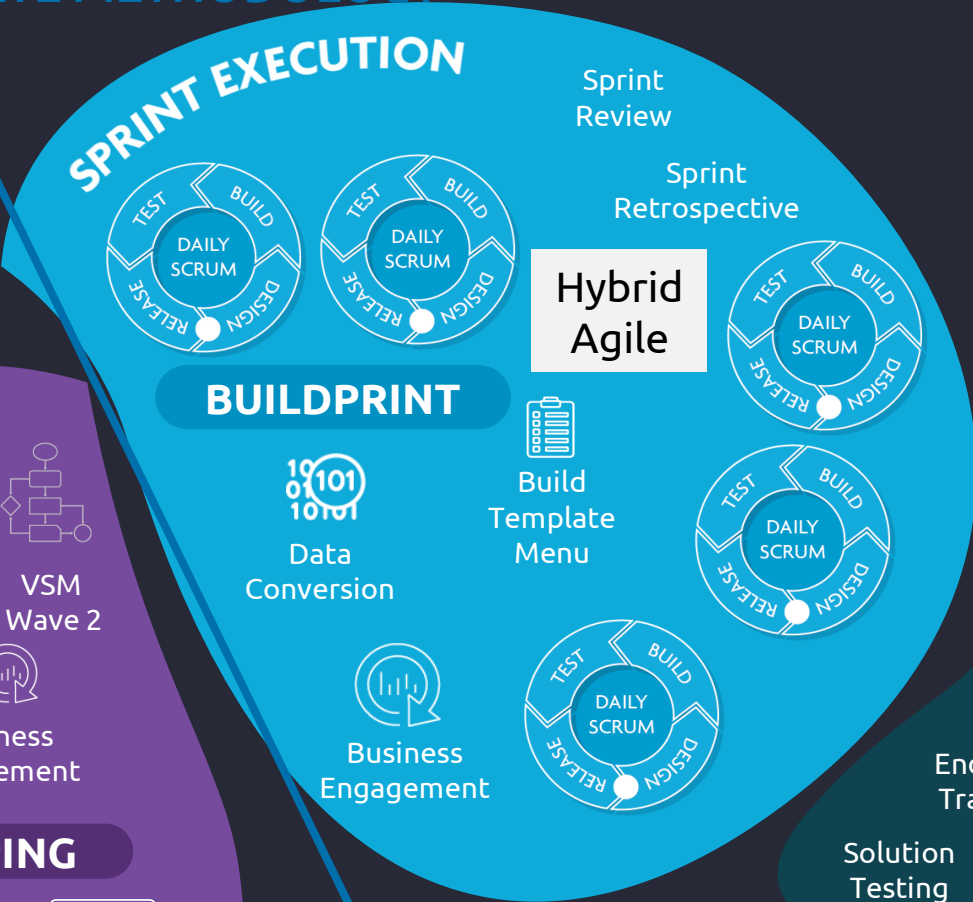

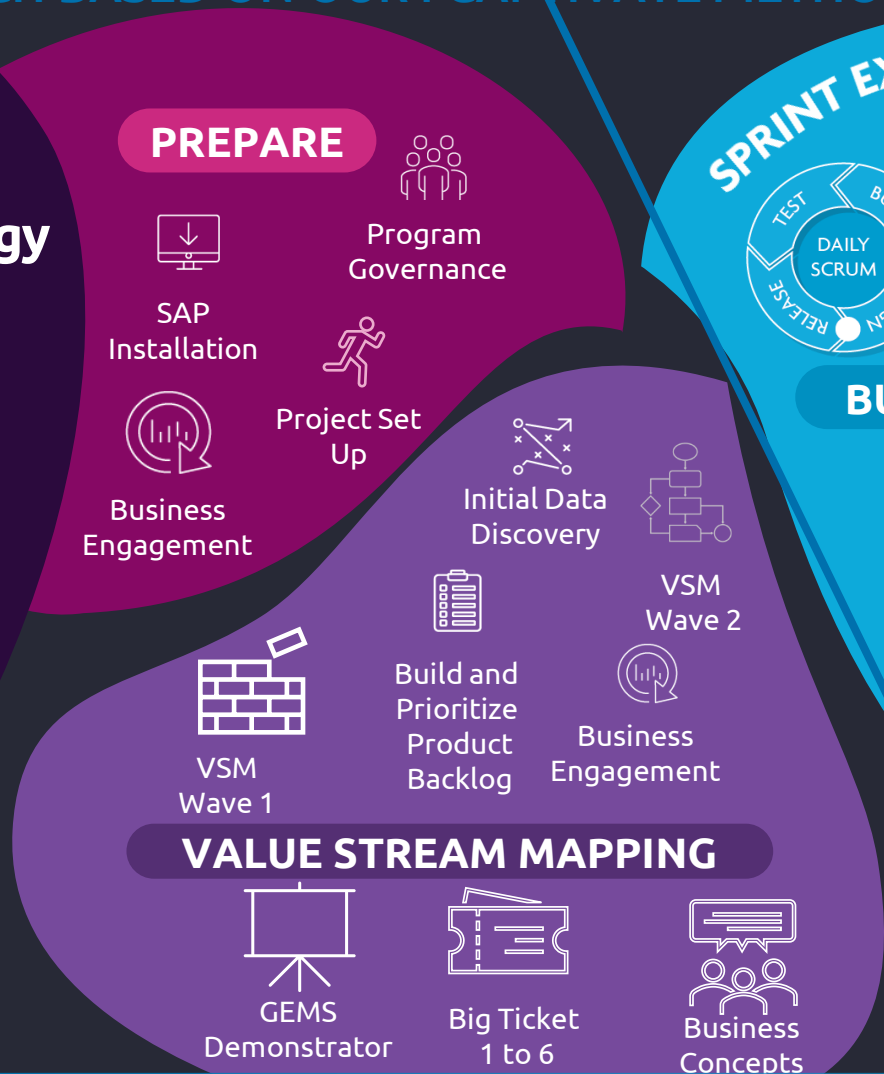

GEMS GLOBAL ERP-CORE ENABLING MANUFACTURING SITES STANDARDIZATION

APPROACH BASED ON OUR I CAPTIVATE METHODOLOGY

Capgemini Methodology Agile Journey

 **Key objective - Standard business processes on a standardized modern ERP system across the across countries / continents**

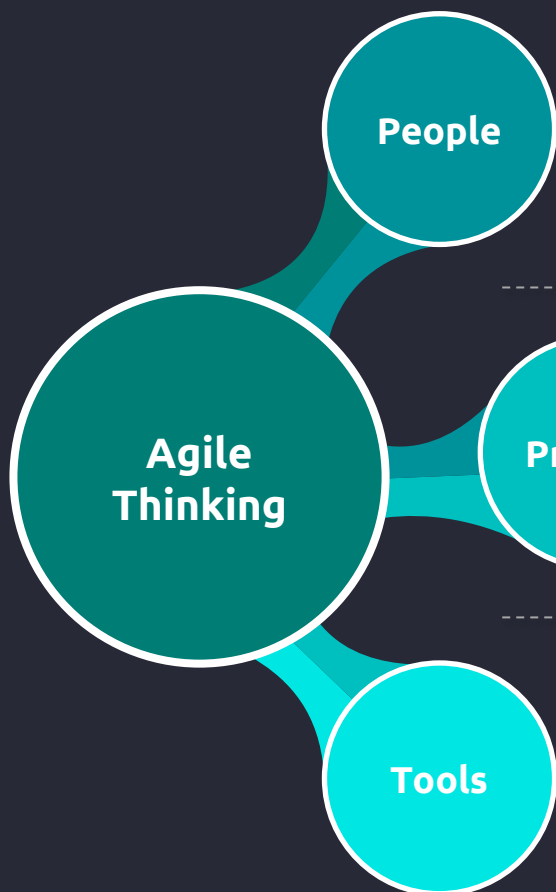

ONE TEAM ONE APPROACH

DESCRIPTION

Capgemini proposes an optimized delivery model combining highly skilled global talents from across Europe and Offshore to deliver as **“One Team”**

Distributed Teams

Collaboration & Connect

Global Team

Distributed Agile delivery Approach

Capgemini Agile Framework

Rightshore® Delivery

Distributed Agile enabling Tools

Virtual Visual Management Tools
